The Pixel Framer

Scrapbooking is not new. People have been saving mementos and pressing them into books since the 18th Century, if not longer. It was then that the practice became popular with souvenirs of special events and precious moments being kept in books and diaries. In today's digital age, we can save images and create digital scrapbooks that be saved in print, on blogs and web sites, and sent by email.

Whether you are a photographer creating wedding albums, a teacher documenting a science fair, a new mom, or seasoned traveler; you can now create attractive memory books for all of your projects. Plus, with digital content for your books, there is no waste or no costly papers and embellishments to buy each time you start a project!

Bring us your memories

The Pixel Framer provides fun and easy to use software and content for all age groups. Choose from our Classic, School, Wedding, or Baby Editions. Each editions is filled with over 400 MB of content to use in your projects. There is something for every member of the family, and scrapbooks make great gifts. At less than \$40 per edition, you can hardly go wrong. Ask about discounts for purchasing bundled editions.

Cultural Themes

What separates The Pixel Framer from other scrapbook sites is our emphasis on Cultural and Ethnic Scrapbooking. Our growing library of embellishments includes African American, Spanish, Arabic, Asian, Indian/Pakistani, and other themes. We are open to request from our customers as well.

If there is something you would like for a special event, please feel free to contact our designers. We also create templates for professional photography and modeling needs.

Got Talent?

Scrapbooking for others has become a very lucrative source of income for many creative hobbyists with an eye for design. Let us show you how to become a part of this multi-billion dollar industry and how you might supplementing your income.
